Ordinance Language and Organization Subcommittee Report –Tim reported on the sub-committee’s progress, what they have been doing is trying to take all of the draft documents and combining them into one draft ordinance. In doing this is lets us know where we are and where we need to be, it gives us guidance as to which parts we need to cover before we take it to the Council. The definitions sub-committee is still going on, it is still a working document at this point.

It is hoped to have this working draft ordinance on line for people to review.
